

Talal Abu-Ghazaleh & Co. Consulting
In association with

The Global Security Services (GSS) - USA

is pleased to launch Professional Training Programs specializing in

"Security, Military and Public Safety"

Security Management Course

Duration: 2 months
Cost: Please contact us for details
Prerequisites: None
Objective: To equip managers with the knowledge sets and skills inventory necessary for success in demanding security environments. Principal outcomes will be leadership enablement and best practices execution via exploitation of managerial finesse and core competencies.

Close Protection (CP) Course

Duration: 5 days
Cost: Please contact us for details
Prerequisites: None
Objective: To produce professional and competent protective agents, capable of making sound decisions in high-stress environments where the consequences of error are great. Graduates will have learned all aspects of advanced modern CP operational theory and practice.

Defensive Tactics Course

Duration: 5 days
Cost: Please contact us for details
Prerequisites: None
Objective: To equip professionals with the physical and mental techniques to defend themselves and their principles from Close Proximity Violence. Graduates will possess the skills, knowledge, and mental will to defend and counter against a wide array of armed and unarmed attacks at close range

Security Driving Course

Duration: 5 days
Cost: Please contact us for details
Prerequisites: None
Objective: To provide Law Enforcement, Military and Security Operators with the skills inventory and knowledge base to effectively drive a vehicle in high-risk operations. Graduates will understand the nuances of security driving, and will be able to effectively drive both soft-skinned and armored vehicles.

Tactical Firearms

Duration: 5 days
Cost: Please contact us for details
Prerequisites: Government Only
Objective: To provide skills and competencies for safe and effective deployment of firearms in military and law-enforcement applications. Graduates will have learned the safe handling of firearms, including loading; unloading, cleaning, maintenance, and modern combat shooting techniques.

Emergency Trauma Care

Duration: 5 days
Cost: Please contact us for details
Prerequisites: None
Objective: To provide Military/Security and Public Safety officers with the skills, knowledge, and proficiencies necessary to effectively administer emergency trauma care to wounded personnel in a tactical environment, with minimal equipment and support.
